Some take a sea voyage on a doctor's advice; others on a lawyer's.
One consolation is that the radio campaign orator has to quit when his time is up.

A credit man is a fellow who directs that your order shall be shipped C. O. D.

Insanity is decreasing, according to an alienist. But not among people who do murder.

Just now the only desirable feature of membership on the Federal Farm Board is the salary.

Don't worry if your little boy is fond of playing in dirt. He may become a great politician.

A Chicago man who feared to lose his job by being too good at his work, is now being paid to do it by hanging himself.

Our economists know a lot about business and finance, but each one knows it in a different way.

Nearly everything about the World War has been settled except the started it and who won.

The radio listener's protection against long-winded advertising harangues is the movable dial.

A New York man fined \$25 for beating his wife said he only thought amusement taxes had been repealed.

An American expedition is seeking Noah's Ark. And maybe Uncle Sam will buy it for the Shipping Board.

A magazine publishes letters requested from readers on "What would do if I were President?" The letters go a long way toward explaining why none of the writers is President.

YELLOWSTONE WONDERS
Sixty years ago Congress set apart 3,575 square miles of land, mostly in northwestern Wyoming—known as Yellowstone National Park, in order to preserve for posterity one of the most wonderful groups of natural phenomena in the world.

The park is situated on a mountain plateau from its to eight thousand feet above sea level, with a high peak of volcanic origin, but no extinct, there are several lakes, the largest being Yellowstone Lake, about 10 by 20 miles in extent and lying 7,743 feet above sea level. The falls and geysers of the Yellowstone River are among the most spectacular and beautiful to be found anywhere.

Of paramount interest to many of the geologists, about in all the world, is the fact that the geysers, which are the most numerous and the most spectacular of the world, are the result of volcanic action. The geysers are the result of volcanic action.

This was the last total eclipse of the sun to be seen in the United States until 1945, when one will be visible in portions of Idaho and Montana. In 1944 another one will be seen along a path from Nebraska to Michigan; in 1950 one will be visible in the extreme northwestern part of the country, and the next total eclipse to be seen over any considerable area of the United States will be that of the year 1954.

ECLIPSES OF THE SUN
While there is nothing mysterious about eclipses, they have always been of interest to the layman, and the scientific study of astronomy. Unfortunately, the total eclipse of the sun on August 21, 1932, was obscured by clouds along the path of the eclipse. The total eclipse of the sun on August 21, 1932, was obscured by clouds along the path of the eclipse.

Of paramount interest to many of the geologists, about in all the world, is the fact that the geysers, which are the most numerous and the most spectacular of the world, are the result of volcanic action. The geysers are the result of volcanic action.

This was the last total eclipse of the sun to be seen in the United States until 1945, when one will be visible in portions of Idaho and Montana. In 1944 another one will be seen along a path from Nebraska to Michigan; in 1950 one will be visible in the extreme northwestern part of the country, and the next total eclipse to be seen over any considerable area of the United States will be that of the year 1954.

First Hundred Steps the Hardest
By Albert B. Reid
The first hundred steps of a new venture are the hardest. The first hundred steps of a new venture are the hardest.

HIGHER EDUCATION
The first hundred steps of a new venture are the hardest. The first hundred steps of a new venture are the hardest.

hundreds of visitors are to be found in the park, which annually attracts great numbers of tourists. Hunting is forbidden, but fishing is permitted. The park is one of the greatest wild life and animal preserves in the world.
It was considered foreboding that this wonderful region was dedicated to public use by Congress as late as 1906, and that in 1907, which is far enough to look ahead for the present.

COLLEGE ENDOWMENTS
Recently a financial writer in Harper's held out how valuable the funds of life insurance companies are distributed in investments, and how many kinds of enterprises are dependent upon for the protection of policyholders. For insurance companies must invest their funds, as it would be impossible to allow them to remain idle.

Only about 11 per cent of these resources is held in cash and in property used in the transaction of the insurance business. The rest is invested in securities of public utilities, railroads, telephone and telegraph companies, and in bonds of the United States and its political subdivisions, as well as in mortgages on real estate.

When it is considered that legal reserve insurance in this country has assets of some 20 billion dollars, the enormous influence which this vast amount of capital has exerted upon the life insurance industry can be readily understood.

It means that owners of life insurance policies have a direct interest in about 90 per cent of the country's entire wealth. It also means that the life insurance industry is a powerful factor in the country's economic life.

FIFTY YEARS OF POWER
This month marks the 50th anniversary of the opening of the first electrical central station in the world by Thomas A. Edison on Pearl Street, New York. This month marks the 50th anniversary of the opening of the first electrical central station in the world by Thomas A. Edison on Pearl Street, New York.

BURIAL OF SMALL-POX
Ceremonies held in various places in connection with the funeral of the late small-pox patient, who died at the State Hospital, California, more than 44 years ago. The funeral was held at the State Hospital, California, more than 44 years ago.

THE ELBA CLIPPER
BRUCE BARON
"writer of 'THE MASTER EXECUTIVE'"

Success is always exciting; who says authoritatively, "I have never known of anything that has not been done before." There was a time when success was a matter of chance, and when the only way to success was to be lucky. But now, success is a matter of choice, and the only way to success is to be wise.

It is to the credit of philanthropy that it has been given the character to make proper use of a college course should crowd out an earnest and qualified student. That any who possess the mental and moral capacity for higher education for the advancement of mankind should be denied it is a tragedy.

Some of the millions which are devoted for the general use of education, for the establishment of scholarships, including the support of talented boys and girls who are unable to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Many scholars are provided for, but it is to be regretted that the number of those who are able to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Many scholars are provided for, but it is to be regretted that the number of those who are able to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Many scholars are provided for, but it is to be regretted that the number of those who are able to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Many scholars are provided for, but it is to be regretted that the number of those who are able to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Many scholars are provided for, but it is to be regretted that the number of those who are able to secure higher education through the aid of one in a thousand and debt. The essential element in personal magnetism is a consummate ability to make one's own life a success.

Mr. and Mrs. Kyle Park and Mrs. M. J. Park of Andalusia were guests of Mr. and Mrs. R. O. Sawyer and Mrs. Eva Eaters Sunday.

Mrs. Walker Bancroft, who has been spending the summer with relatives here and in Barbour County, returned to her home in Mobile Tuesday.

Mrs. L. A. Hatcher and children of Panama City, Fla., spent the week-end with relatives in Elba.

Miss Gladys Jackson has returned to her home in Elba after a month's visit with friends in Montezuma, Georgia.

Miss Johnnie Shealy visited in Brundidge last week.

Miss Fred Cox was the guest of relatives in Elba the first of the week.

Mr. and Mrs. Walter Jackson and Mr. and Mrs. Hohn Michel visited in Enterprise Sunday.

Mr. and Mrs. D. C. Marley and daughter, Miss Noy, were Montgomery visitors last Wednesday.

Mr. and Mrs. F. A. Devane and family have rented a farm near Pensacola, Fla., and will move there in the near future. Mr. Devane has been engaged in the grocery business here for several years. He says the better facilities and school facilities prevailing at his new location are important factors that are causing him to leave Elba.

Mrs. W. J. Bullard and daughter, Miss Annie Laurie and little Miss W. C. Braswell and little Betty Jean Bullard spent Friday in Montgomery.

Mr. T. H. Deal and son, Louis and Robert Cooper were visitors to Mobile Tuesday.

Rev. B. S. Franklin, Mr. W. T. Whitman and son, Walter, Jr., made a business trip to Birmingham last Saturday, making arrangements for Walter, Jr., to enter Howard College, where he will resume his course in education. He has secured a job in one of the Puller drug stores in Birmingham and has hopes of being put in charge of the laboratory next year, as he will be further advanced than the rest of the students as the course in pharmacy is only being begun this year. He returned to Elba Saturday night but left for Birmingham Tuesday morning.

Mr. A. M. Chapman, a progressive farmer of the Elba community, made an appreciated call at The Elba office Monday. Mr. Chapman is slowly recovering from injuries received by being thrown by a bucking mule about two weeks ago.

Miss Bonnell Carenton of Enterprise is visiting in the home of Mr. and Mrs. Herman Martin.

Mr. and Mrs. B. F. Conner and family spent the week-end with Mrs. Conner's parents, Mr. and Mrs. T. J. Whitman, at Chipley, Fla. Harold Conner, who has been visiting his grandparents for the past two months, returned home and entered school Monday.

Mr. E. A. Dyerle of Boston, Ga., who has been in Hot Springs, Ark., for the past month for his health, spent Wednesday of last week in Elba with friends. He left Thursday morning for his home in Boston. Mr. Dyerle formerly lived in Elba, where he was employed by the A. C. L., and his many friends here are always glad to see him.

Mr. and Mrs. Will Owen and daughter of Dozier visited Mr. and Mrs. William Bullard and Mr. L. N. Heath Sunday. Mr. Owen reported that Mr. W. F. Cooper of Brantley has been confined to his bed for some time and will probably be unable to be up and around for another week or two.

Dr. W. M. Ringsdorf went to Montgomery last Thursday to meet Mrs. Ringsdorf and son, Marshall, Jr., who came with Mrs. Ringsdorf's father from Lafayette, where they had been visiting for the past four weeks.

Miss Irene Jones of Pike County was the attractive guest of Miss Margaret Franklin last week.

Mr. Woodrow Woodham of Opp spent Sunday and Monday in Elba.

More and More Satisfied Customers!

Yes Sir! That's our aim, and we're getting them, too—by being courteous and attentive and giving good service—always.

Have often considered handling a complete line of Accessories, but decided for the present, at least, to devote all our efforts to the best Gasoline, Oil, Washing, Polishing and Greasing service. We are continuing to Wash, Polish and Grease all for \$1.25.

Have attractive price on Oil in Five Gallon Lots.

We are Gas and Oil Specialists. Handle Gas that's full of pep life and Motor Oil that has an excellent lubrication.

So when you want gas that gives you extra mileage, with plenty of pep, and oil that really lubricates, drive over. All we have is Gas and Oil, but what Gas! What Oil! All served efficiently and with a smile. Just give us a trial.

POLITICS ON PARADE

Right down the line, from national to local tickets, politics will be on parade from now until November, a time when every citizen should want to keep abreast of the news of the day. . . There is no better way of doing this than being a subscriber to your community newspaper, The Elba Clipper. Added to the political news of first importance is all of the local news tersely told, a pen picture of the community activities every week. If you are not a subscriber you should become one at once so you may be able to discuss the affairs of the day with facts based upon wide experience of others.

The regular subscription price of The Elba Clipper is \$1.50 per year. In the effort, however, to have you know at first hand what a good newspaper The Elba Clipper is, we are now offering a special 6-month subscription at only 50c, with an optional renewal clause of an additional year, at expiration of the 6-month period, for only \$1.00. Think of it!—a year and a half subscription for only \$1.50—or a 6-month trial—covering the fall elections, at only 50c.

ELBA CLIPPER, Elba, Alabama:

Gentlemen:—Enclosed find (check or money order) for 50c for a 6-month subscription to your newspaper. This order also carries the privilege of renewing this subscription at expiration of an additional year at \$1.00, if the signer so desires.

Thrilling Stunts in Cleveland

Cleveland, Ohio, August 31, 1932.

Dear Folks:—Well, here we are in Cleveland. Got here about noon Monday. It is just 135 miles from Pittsburgh and the roads are fine all the way. Got here about noon Monday. It is just 135 miles from Pittsburgh and the roads are fine all the way. Got here about noon Monday. It is just 135 miles from Pittsburgh and the roads are fine all the way.

Cleveland is a very beautiful city. We have seen only a few of the many interesting sights as yet. Yesterday we went out to the Airport where the National Air Races are now in progress. Believe me, this is no show. Can't begin to tell you just all the different things that are being pulled off at these air races.

Yesterday we saw a dozen or more parachute jumps, and one in particular was a thriller. An enclosing clipping which tells you that he fell over two miles and opened his chute just a short distance from the ground. We also saw all kinds of planes. There were more than 60 Army planes here yesterday and they did all kinds of maneuvering, including an attack on some down-town buildings.

Of course, the guns were being blank shells. We saw slow planes and fast ones—just every kind that you can imagine. Don't know how many are taking part in the air races this year, but last year there were over six hundred.

There are some of the fastest planes here yet built. We saw Major Jimmy Doolittle make a trial flight yesterday in a new plane and on one stretch he made 140 miles per hour, but was not satisfied as the plane should have made many more miles than that.

The closing event of the Air Races will be the Thompson race next Monday, which is Labor Day. To qualify for this race the plane must make 300 miles per hour or more. I have seen anything just like it. There are several planes in the air nearly every minute and, believe me, some of them can do plenty of stunts. We also saw two Gliders go up yesterday.

I have seen anything just like it. There are several planes in the air nearly every minute and, believe me, some of them can do plenty of stunts. We also saw two Gliders go up yesterday.

They had to be towed up by planes and then were cut loose in the air. One of those birds did all the stunts that planes do and succeeded in staying in the air for more than 30 minutes. They have two or three foreigners who are excellent stunt flyers and they are giving the spectators plenty of thrills.

Speaking of thrills, that fellow who jumped from the top of the tower up is on the program every day and is trying to break a record of 16,000 feet which he has already made. He is carried up in one of the Auto-Giro planes, and by the way, this same plane did all the stunts that other planes have been doing, including the loop-the-loop. It is said that this is the first time stunts have been done with the auto-giro. I could spend the rest of the week out there, as there is something different and thrilling going on every few minutes.

We have planned some sight-seeing trips around the city and for that reason will not be able to see the air races every day, but our plans are to visit them two or three times more before we leave here. We will stay here until after the Labor Day races, as we wish to see just what kind of records are going to be made. Then, too, the highways will be jammed with traffic for this week-end, that is, Saturday, Sunday and Monday.

By the way, time flies so fast that you just can't realize that the days are slipping away. I do not see how we can get back in the time we had originally planned. Our plans are now to leave here next Tuesday for Chicago and I do not know how long we will be there. It is nearly four hundred miles to Chicago and, of course, that will be a bad trip for me, as I have to do all the driving.

We have been thinking about Elba and all our friends every day and are just hoping that everything is running smoothly. Of course, I notice in the papers every day where cotton has been steadily advancing and am just hoping that it will keep climbing. General conditions are not very much changed in any of the larger cities. But with stocks and bonds and other things going up, everyone is a little more hopeful, even if it is just a move for the effect on the coming election. Have not heard any politics much yet, and don't expect to hear any great amount.

Will try to write you again before long and maybe then I can think of something more interesting. Regards to all.

Yours truly, R. C. B.

CHUTE JUMPER FALLS 2 MILES

Dropping like a comet, Herbert (Spud) Manning, Los Angeles daredevil, late today thrilled 25,000 breathless spectators at the National Air Races with a delayed parachute jump of two miles—10,500 feet.

Manning "bailed out" of an auto-giro at 11,000 feet, high above a cloud, and shot down through its edge. After he had fallen about a mile, at 150 miles an hour, he opened a 25-pound sack of flour so the crowd could follow his progress.

For a while he was flat on his back. Then he turned over. Then he rolled over on his back again.

LIBERTY NEWS ITEMS

Here we are in this beautiful Autumn morn. So many beautiful flowers, cotton fields so white, the corn fields just wrapped up in velvet leaves which are full of beautiful blooms. So, you see, it kinda charms us to look out over the fields, now to look on the forests, it just makes us wonder what had not God wrought? This is a busy time, but it will soon be over with, for a short time is easily carried.

Now, this is the smallest crop we have had in years. Many have not found how little is being made. Some have very good cotton, but most of it is short.

The price is a little better than last year but will not make up for the shortage. What are we to do? We have been looking for a brighter day to dawn. We are about broken up. We are traveling a road that is rough and steep with a burden that is heavy to bear. We have no star. We long for a better day to dawn.

The crops are short everywhere I can hear from. We will not get last year's. Just one more week and the cotton will all be gathered out here.

Just think! We have been keeping the children out of school all the middle of October, but they are not all be ready by the first of October.

No sickness out here at present. The death angel has visited out here several times this year, plucking the prettiest flowers of the homes, but the Lord makes no mistakes.

I believe the meetings have all closed at last. We have been going for two months. It seems that the preachers have all been fighting sin. The old saying is that all great minds run in the same channel.

The Sunday School is going on fine. Surely we could do better if every one would do his best. We were too late Sunday afternoon, but we will have off days sometimes. He sure and come on Sunday.

Rev. L. V. Tubb was with us Sunday afternoon and was at his best.

Mr. and Mrs. J. W. Osteen and daughter, Nell, of Columbus, Ga., are visiting Mr. and Mrs. H. I. Roland.

With best wishes, H. I. ROLAND.

New and used Peanut Pickers also complete stock Lilliston replacements. DORSEY BROS.

Little Miss Patsie Mack of Newbia spent last week with her grandparents, Mr. and Mrs. J. L. Bryan, and her aunt, Mrs. Clifford Cook.

At 500 feet from the ground, still shooting downward headfirst, he waved his arms and pulled the record of his parachute. It snapped open and he landed safely on the airport.

DEATH OF MRS. S. WALDON

Mrs. Susan Waldon died Tuesday, September 6, at her home in the Hickory Grove community, after an illness of about three months. She was born in Georgia and was a daughter of Mr. and Mrs. Dave Lewis.

Mrs. Waldon was 60 years of age at the time of her death and is survived by three sons: Bob, Henry and John Waldon, and a large number of other relatives and friends.

Funeral services were conducted at Hickory Grove Church Wednesday at 10 a.m., and the remains were interred in Hickory Grove cemetery, with Rhodes Funeral Home in charge of arrangements.

DEATH OF G. W. DORSEY

George W. Dorsey, aged 82 years, departed this life August 30, 1932, at his home in Opp. He was born in Georgia, May 30, 1850, being a son of Mr. and Mrs. William Dorsey.

The deceased is survived by three sons and one daughter: H. H., C. H. and M. F. Dorsey; and Mrs. Edie Hargrove.

Funeral services were held at Beulah Church at 2 p.m., August 31, and interment took place in Beulah cemetery, with Rhodes, Elba, in charge.

DEATH OF LITTLE NELLIE MYRLE FOWORTH

Nellie Myrle, little daughter of Mr. and Mrs. —, Foxworth, died Aug. 30, 1932, at their home at Victoria, after an illness of only two days. Little Nellie Myrle was born at Victoria April 17, 1929. Funeral services were held at Victoria on Wednesday, August 31, with Rhodes in charge.

Mr. J. D. Willis, city clerk for the Town of New Brockton, was in Elba Tuesday. He called at The Elba office and placed an order for ballots for the municipal election which will be held in New Brockton on Monday, September 19.

The election promises to be a spirited one, as there are three candidates for mayor and three for councilman in Ward No. 1.

Prof. and Mrs. O. C. Bryan and children of Gainesville, Fla., spent Saturday night with Prof. Bryan's sister, Mrs. Sam Young, and husband. Prof. Bryan is a former Coffee County boy who has made his mark in the educational world, being a member of the faculty at Florida State University. He was born and reared in the Bullock community. He has been teaching at Gainesville for the past time called to Montgomery Tuesday in connection with the federal seed loan trade which have been rocking Dothan and other points in Alabama for the past several months. In Birmingham, there were are predicted hereabouts in the near future. There is no telling how or where Uncle Sam's strong arm will fall, but many are hoping for the best.

Quite a number of prominent citizens of Elba, Enterprise and other parts of Coffee County were called to Montgomery Tuesday in connection with the federal seed loan trade which have been rocking Dothan and other points in Alabama for the past several months. In Birmingham, there were are predicted hereabouts in the near future. There is no telling how or where Uncle Sam's strong arm will fall, but many are hoping for the best.

Miss Kathleen Talbot, after spending a few weeks with home folks in Elba, has returned to College Point, Fla., where she will resume her studies in Bob Jones College. Miss "Kitty," as she is affectionately known by her schoolmates, is making an enviable record as a student and Christian worker.

William and Robert Ellis of the Brooklyn community visited in Elba Thursday.

John Kendrick, who is employed at the A. C. L. station, is taking a vacation, Mike Maddox taking his place during his absence.

Miss Dorothy Clark of Montgomery is visiting her cousin, Miss Mary Elma Prescott.

Mr. and Mrs. Baxter Bryan and little sons, Bobby and Thomas, and Misses Mary, Jessie and Dixie Lee went to Montgomery Sunday morning, where they took the train for Atlanta to spend the day with relatives.

New and used Peanut Pickers also complete stock Lilliston replacements. DORSEY BROS.

Mr. and Mrs. Luther Williams of Sylacauga visited Rev. and Mrs. S. Franklin several days last week.

Mrs. J. J. Deloney is slowly improving at her home after a long illness.

Friends of Mrs. J. J. Deloney will be interested to know that her brother, James Byrd Pileher, American Consul to China, will be married September 15th in Yokohama, Japan, to Miss Elsie Williams of Cordele, Georgia. Miss Williams sailed from San Francisco August 29th for the foreign city.

Miss Johnnie Grace Marsh of New Brockton is the guest of her aunt, Mrs. D. C. Marley.

Mrs. T. D. Kendrick and children have returned home after spending several days in Enterprise on account of the serious illness of her mother, Mrs. J. A. Crisley, who has been confined to a hospital. We are informed that Mrs. Crisley is considerably improved in health.

New and used Peanut Pickers also complete stock Lilliston replacements. DORSEY BROS.
